Individual Asessment Rubric and feedback

This rubric describes a set of components for assessing the individual assignment submission for the business plan 2.0 round pitching.

- The student should submit a report with details for the criteria mentioned in the table.
- At least 7-10 (academic and industry references) should be used in the PPT.
- References and citations should be provided in the APA style.
- Supplement your report with figures, tables wherever necessary.

Criteria	**Comments**
What is the Start Up idea?	
How does it work?	
Value Proposition	
Market Size and Potential [Market Analyses (Market Segmentation, Pricing, Product/service use)]	
Any other market segments

3.2 Individual Assignment - Business Plan 2.0 disruptive launch

ULO B, C

Criteria	**Below Expectations (<50%)**	**Meets Expectations (50%-70%)**	**Exceeds Expectations (>70%)**
Business Plan Development (Innovation & Viability) **(ULO B)**	Produces an incomplete or unrealistic business plan; limited use of secondary data or desk research; lacks innovation or feasibility.	Develops a viable business plan supported by relevant secondary data and desk research; shows some elements of innovation.	Produces a detailed, innovative (potentially disruptive), and highly viable business plan; demonstrates excellent use of secondary data and research to justify decisions.
Financing & Financial Projections **(ULO C)**	Demonstrates little understanding of financing sources; financial projections are inaccurate, inconsistent, or missing.	Identifies and compares different financing sources adequately; formulates reasonable financial projections to support the venture.	Critically evaluates multiple financing sources; integrates financing strategy with well-structured, robust, and realistic financial projections that strengthen the disruptive venture plan.
